Summary

Full stack developer with a life-long dedication to learning. Excellent communication and effectively collaborates with others to ensure goals are achieved. Resourceful problem-solver with superior conflict resolution skills.

Technical Skills

- Languages: JavaScript, HTML5, CSS3, AJAX, Node.js, RESTful APIs, Express, React, Bootstrap, JQuery, MongoDB, Mongoose, MySQL, Git
- Additional Skills: Debugging, Troubleshooting, Agile-based Project Management

Projects

PokeFinder

<https://github.com/Saigonmai/PokeFinder> <https://saigonmai.github.io/PokeFinder/>

- An app meant to attempt to connect fictional Pokemon's habitat types to an affiliated place near the user's location then returns the affiliated data back to the user.
- Contributed by creating the backend framework, designing the process that the app would go through to retrieve data, and integrating all code provided by other project contributors
- Created using JavaScript, HTML, CSS, Bootstrap, TomTom maps, PokeApi, and Extreme IP Lookup

Recipe-Recite

<https://github.com/KaiAnnFletcher/Recipe-Recite> <https://vast-cliffs-50637.herokuapp.com/>

- The app pulls recipes from allrecipes.com and users can browse for various recipes. After selecting a recipe, the app can then read the recipes out loud and respond to vocal commands.
- Contributed by organizing and creating the backend framework, setting up the authentication process, designing the process that the user would take through the site
- Created using React, Mongoose, Axios, Cheerio, Allrecipe's website

Work Experience

Leon's Furniture LTD, 2018-2019

- Helped manage customers' questions and complaints in a timely manner which allowed for a smooth progression through many customers preventing any large delays and issues
- Maintained an organized environment, allowing for workflow to be easy to follow, and convenient to keep up with pending work

Jia.com, 2017

- Interned over the summer, assisted senior developers with Android app development through the use of Android Studio and Java
